Author(s) grant NanoWorld Journal a license (chosen by author) to publish the article and identify itself as the original publisher.

**Please select the appropriate license below depending on the article usage:**

### **CC BY (Attribution)**

The license lets other distribute, remix, tweak, and build on your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.

### **CC BY-NC (Attribution-NonCommercial)**

This license lets others remix, tweak, and build on your work non-commercially and, although their new works must also acknowledge you and be noncommercial, they do not have to license their derivative works on the same terms.

**By signing this agreement the authors also warrant and represent that:**

- i. All authors listed in the work have agreed to the publication and this agreement. The corresponding author is signing this form on behalf of all authors.
- ii. The content is original, has not been previously published, and is not in the public domain.
- iii. The authors are the sole owners of the copyright of the contribution and have the full authority to enter into this agreement with NanoWorld Journal. If the contribution includes materials of others, the authors have obtained permission of the original copyright owner to enable them to grant the rights contained herein.
- iv. The publication does not infringe the copyright or any other proprietary right of any party.
- v. The publication contains no material that is defamatory, violates any right of privacy or is otherwise contrary to law.
